phonetrack

What is Phonetrack?

Phonetrack is a low battery consumption phone tracking application with various features for easier everyday communication with your family and friends.

How does it work?

With Phonetrack app you can create Geofences - as many safe zones as you need. With no limits you can set alerts when a tracked phone leaves or enters a specific area at a particular time of the day, day of the week, or just any time.

What other features does it have?

Phonetrack offers you a number of practical features:

LOCATION HISTORY

reveals where the phone you are tracking was for any period of time

LIVE CHAT

enables you to share free messages, images and video files with your friends

NOTIFICATIONS

inform you when your loved ones enter/exit certain areas (Home, School, Work, etc.) or send alert

With Phonetrack you can also request the position where your friends are at any moment. Even when GPS is disabled, you will get an approximate phone location via GPRS.

For daily use you can choose either the Free or Professional Phonetrack application. The latter provides an unlimited number of people you can track and unlimited geofences, as well as Live Chat, Check-in and SOS functionality.
